SKILLS

Languages : JavaScript, C++

Frontend : HTML , CSS , React , Tailwind CSS , SASS

Backend : Node.js, Express, MongoDB

Tools : Git, JIRA, VS Code

WORK EXPERIENCE

DesignerX (FrontEnd Engineer)

June, 2023 – Nov, 2024

- Successfully delivered full-stack projects and SASS applications, tailored to client needs with user-friendly interfaces, secure APIs, and seamless performance.
- Optimized application security and performance by reducing API calls, implementing caching mechanisms, lazy loading, code splitting, and efficient data handling practices reducing load times by **40%**.
- Developed and optimized responsive UIs using React.js, reducing page load times by **15%** and enhancing code maintainability through declarative coding practices.

Iamneo (Full Stack Intern)

Oct, 2022 – April, 2023

- Collaborated with a team of front-end and back-end developers to implement UI components and integrate them with the API.
- Assisted in designing and implementing the user authentication and authorization system and implemented JWT tokens also
- Resolved a cross-browser compatibility issue by implementing responsive CSS techniques, ensuring consistent UI across devices.
- Implemented multi-language support, allowing seamless switching between languages for a global user base, enhancing user accessibility and engagement

PROJECTS

Food-App :

[View in GitHub](#)

- Developed a comprehensive food delivery web application, enabling users to browse menus, place orders, and track deliveries in real-time with official Swiggy API.
- Code splitting and efficient data handling practices are followed for performance and reduce the load in the clients browser .
